

When do nonprofit organizations receive collected donations?

Last Modified on 06/02/2022 4:40 pm PDT

If you have a merchant account...

For organizations who have [signed up for our Merchant Services](#), funds are deposited transferred to your bank account the day after the donation has been processed.

For more answers about merchant services, review the [Frequently Asked Questions](#).

If you don't have a merchant account (you receive checks)...

For legacy accounts, credit and debit card collected donations are remitted by GiveSmart Fundraise once a month for organizations on our default payment processing gateway. Checks are processed and mailed within 30 days of the period end and reflect all funds collected on your behalf during the donation period.

***NOTE:** check remittance is no longer offered for new accounts.*
