

How can I see the message my supporters text with a keyword?

Last Modified on 09/25/2023 1:03 pm PDT

Messages from supporters who text a keyword followed by a name, number or message are captured inside your GiveSmart Fundraise account. Typically, these messages are prompted by the speaker at events to be displayed on the fundraising thermometer.

Messages can be included with any keyword.

To view messages select **Text** from the left navigation.

Then click **Inbox** on the left.
