

How do I find the URL link to my fundraising thermometer?

Last Modified on 08/04/2023 11:29 am PDT

There are several ways to get to the Thermometer. The most common ways are from the Thermometer menu and from the Activity / Keyword form page.

Option 1: Navigation Menu

In the left navigation menu, click on Activity Landing Pages.

The Public Link is the link you can give to your A/V specialist and use it to display the thermometer on a TV screen or projector at a live event.

Keyword	Campaign	Visits	Public Link	Actions
BALLOONRSVP	Paws for the Future	0	igfn.us/e/CHxs4g	
SPONSORDESIGN	Paws for the Future	1	igfn.us/e/N_tcVA	

Option 2: Activity

Once you choose from an existing activity, select **View Fundraising Thermometer** link within the activity.
