

How are collected donations transmitted to my bank account

Last Modified on 07/28/2025 11:28 am PDT

Donations collected through GiveSmart Fundraise will be batched to your bank account daily at 6:45 pm Pacific. Batches will appear in your bank statement within 24-48 hours (depending on your bank) as soon as the transactions are settled.

The deposit method for funding batches is ACH directly to the bank account number, and they will appear with the label "MERCHANT BANKCD DEPOSIT 496-----" where the numerical figure starting with "496" is your Fiserv (formerly CardConnect) merchant ID (MID).
