

# How are collected donations transmitted to my bank account

Last Modified on 09/21/2023 9:07 am PDT

Donations collected through GiveSmart Fundraise will be batched to your bank account daily at 6:45pm Pacific. Batches will show up in your bank statement within 24 - 48 hours (depending on the bank) as soon as the transactions are settled.

The deposit method for funding batches is ACH directly to the bank account number, and they will appear with the label "MERCHANT BANKCD DEPOSIT 496-----" where the numerical figure starting with "496" is your CardConnect merchant ID (MID).

For more answers about merchant services, review the [Frequently Asked Questions](#).
