

Are donor and supporter mobile phone numbers automatically collected?

Last Modified on 06/02/2022 8:05 am PDT

Yes. When somebody texts one of your keywords to the correct shortcode, their mobile number is automatically collected. This applies to all kinds of keywords on any of the shortcodes (41444, 51555, 71777, 91999)

Constituents that interact with keywords on these numbers will be automatically subscribed to a new list in your Lists page accessed by going to **Message Center > Lists**.
