

Twitter Integration

Last Modified on 09/20/2023 10:54 am PDT

The **Twitter** integration provides the your twitter handle in the Social Shares that are available in the [Event Page](#) and in Crowdfunding and Peer-to-Peer Fundraising.

When your supporters click on the social share icons on these pages, they share out to their audiences the message you craft. For Twitter, that default message includes your organization's short name, set in [Settings > Organization](#), and your organization's Twitter handle.

To set the Twitter account to your handle, you can set it in the **Integrations** category of your Account **Settings**:

- Click on **Settings** (the Gear icon)

- Click on the **Integrations** category on the left, then the Social Media section in the middle.

← Back to Dashboard

Twitter Account

Email Marketing

- It will take you to an authorization screen where you need to **log into your Twitter account** and then click on the **Authorize app** button.

Note: Make sure you are logged into Twitter with your organization's Twitter account and not your personal account.

- You will then return to the Social Media section with your account attached.
