Are GiveSmart Fundraise forms Web Content Accessibility Guidelines (WCAG) Compliant?

Last Modified on 06/02/2022 7:42 am PDT

GiveSmart Fundraise forms are WCAG 2.0 AA compliant.

What is WCAG?
How We Test
How You Can Test

What is WCAG?

"Web Content Accessibility Guidelines (WCAG) 2.0 defines how to make Web content more accessible to people with disabilities. Accessibility involves a wide range of disabilities, including visual, auditory, physical, speech, cognitive, language, learning, and neurological disabilities. Although these guidelines cover a wide range of issues, they are not able to address the needs of people with all types, degrees, and combinations of disability. These guidelines also make Web content more usable by older individuals with changing abilities due to aging and often improve usability for users in general."

How We Test

We have reviewed and implemented the WCAG 2.0 guidelines as outlined here.

To test and confirm that we are compliant, we use both of the following tools:

- WAVE: Web Accessibility Evaluation Tool
- Lighthouse Accessibility Audit Tool

How You Can Test

The tools we use are free, third party tools that are completely available for you to use as well.
