Using the Fundraising Thermometer page as just a donor wall

Last Modified on 09/25/2023 10:47 am PDT

Some organizations use the **Fundraising Thermometer** page as a simple Donor wall. You can accomplish this by turning off the majority of the features in the Thermometer design. You will want to start by designing your **Thermometer** be reviewing the **information here**.

Typical Fundraising Thermometer	Donor Wall Only
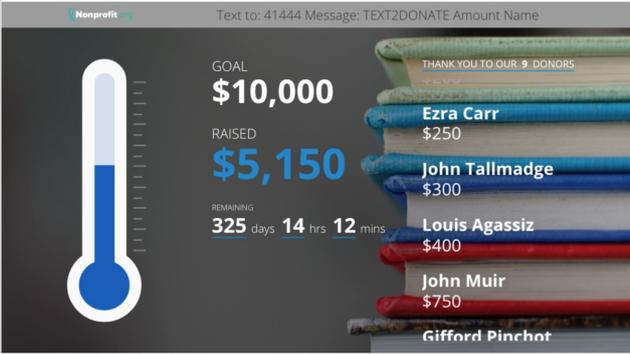

Within your **Text to Donate activity**, go to the **Fundraising Thermometer** category on the left.

You are adjusting what is displayed on the screen, so you will want to be on the **Screen Tab**.

Turning off the **Header** will adjust the height of the rest of the page.

It does not matter if the **Countdown Clock** is enabled or not, if both the **Goal** and **Total Collected** are turned off, the entire column will be turned off.

Turning off the **Donor Count** will increase the height of **Donor Wall.**
