

Event Page Progress Section

Last Modified on 05/20/2022 5:17 pm PDT

This article will guide you through what you can do with a Progress section of designing and working with the Event Page. If you are just starting in designing your event page, you will likely want to [start here](#).

Include a Progress section in your Event Page with a dynamic amount raised, a progress circle that fills as you get closer to your goal, and a donor wall to thank all your donors right on your Event Page.

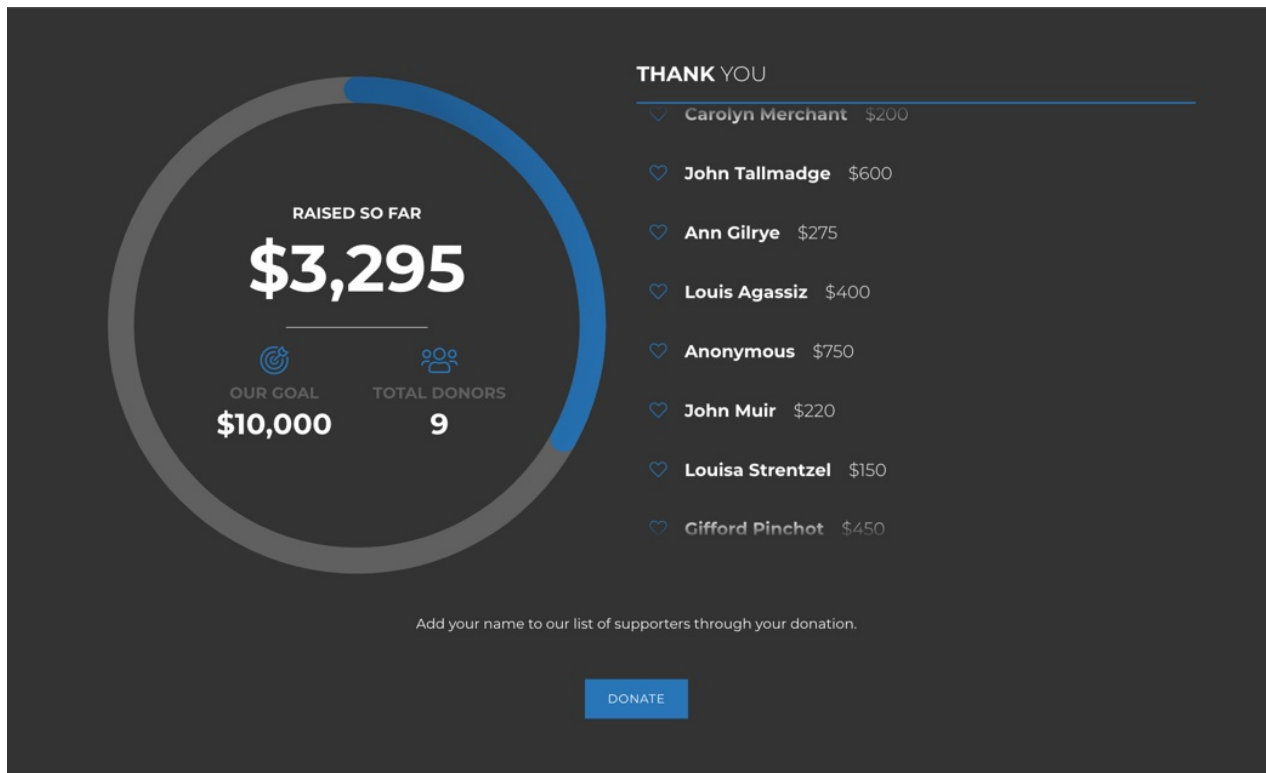

If you will have more than 1,000 live viewers during your virtual event, please contact your [Account Manager](#) a **week in advance** so we can advise on the setup and preparation for your event and schedule complementary technical monitoring during your event.

The Progress section is an optional section you can add to your Event Page. With it, you can have an embedded web page equivalent of your Fundraising Thermometer right on your event page, including a donor wall. In fact, the Progress section uses the same information from your Thermometer page.

Note: the Progress section updates when you refresh the page. It does not instantly refresh like the Fundraising Thermometer page.

You can personalize the Progress section to include or exclude the progress bar and the donor wall so you can create the exact experience you desire.

Note: To use the Progress section correctly, the Event Page must be created in your Text-to-Donate activity as it pulls the donation details from the donation form. Think of it as a different design of a Fundraising Thermometer - it must be used from the same activity.

Add the Progress Section

The Progress section is an optional addition to your Event Page. To add it, click the Add Section button in the upper right of your Event Page designer and choose Progress.

Display Section

If you decide against using the Progress section, you can hide it with the Show/Hide switch.

You can also delete the section by clicking the Trashcan icon if you decide not to use it at all. If you delete it, you will be shown a confirmation box before it completes the deletion

app.mobilecause.com says

Are you sure you want to delete this section?

Cancel

OK

Title

You don't need to use a title, so the **Show/Hide** switch starts disabled. If you want a title, switch it to Show.

You can edit the Title to be anything you wish and include different formatting. You can also choose other variables from the drop-down list.

Progress Circle

If you don't want the Progress Circle, you can hide it. Maybe you just want a donor wall. If you hide the Progress Bar, then the Donor wall will automatically be centered in this section.

Otherwise, you can edit the Progress Circle by clicking the **Edit** icon.

×

Edit Element - Progress Circle

Reporting Label: Progress Circle ?

Choose which options to display:

Goal	On	<input checked="" type="checkbox"/>
<input type="text" value="\$ 10000"/>		
		5 / 10
Total Donations	On	<input checked="" type="checkbox"/>
Donor Count	On	<input checked="" type="checkbox"/>

Cancel Save

Here, you can choose to show the goal with the On/Off switch, and choose a goal amount.

The initial goal amount is initially copied from the amount you set in the Fundraising Thermometer section as you create the Event Page. At that point, the goals no longer sync and you can set either to whatever amount you want.

If you have not set up the goal in the Fundraising thermometer, then the initial amount for the Progress Bar will be set to \$10,000.

You can **show or hide** the Total Collected amount.

You can **show or hide** the Donor count.

Make sure to click **Save** if you make any changes.

Again, the Total Collected and the Donor count are calculated from within *this* activity, so it is a best practice to always create your Event Page from your main Text-to-Donate activity.

Donor Wall

If you don't want the Donor wall, you can hide it with the Show/Hide switch. If you hide the Donor wall, then the Progress Bar will automatically be centered in this section.

Otherwise, you can edit the Donor Wall by clicking the **Edit** icon.

Edit Element - Donor Wall ✕

Reporting Label: Donor Wall ⓘ

Donation Amount Format:

Name	On <input checked="" type="checkbox"/>
Donation Amount	On <input checked="" type="checkbox"/>

Cancel Save

You can choose to show the donors' names and or the amount they have donated.

Make sure to click **Save** if you make any changes.

While the Goal in the Progress Bar section is only initially tied to the goal in the Fundraising thermometer, the actual donors and the amount they've donated will be the same for both, if you're using both, including any offline donations.

For more information on the Fundraising Thermometer, [click here](#).

Include In Totals

This allows you to determine what you want to be calculated in your Progress Circle. It will always show actual donations.

By default, it will also include both:

Pledges: those who have texted in an amount, but have not completed their donation on the donation page

Offline: those who have donated by check or by cash (such as through a donor card at an in-person event or through email for a virtual, or any event) and you have entered them using the [Enter Offline Donations](#) category on the left. You can enter them individually or [in bulk](#).

[×](#)

Edit Element - Include in Totals

Reporting Label: Include in Totals ⓘ

Include in Totals:
Choose which Donation types you want to include. Collected donations are always included. These settings impact both the Donor Wall and the Progress Circle.

Pledges (not collected) Show

Offline Show

[Cancel](#) [Save](#)

We generally recommend you leave both Pledges and Offline donations turned on as it creates a more dynamic experience, but this can depend on the design and focus of your event.

Message

The Message section is usually used to alert supporters to the Donate button so they can affect the progress, but it could be anything from thanking your donors to cheering the progress so far to motivating people to donate.

If you do not want to include a message, you can use the **Show/Hide switch** to remove it from your Event Page.

Button

While the button is listed generically, so can be used for anything, in the Progress section, it is primarily used for Donations so the donor can see their name on the Donor Wall and see the progress increase.

If you do not want to include the Button, you can use the **Show/Hide switch** to remove it from your Event Page.

Click the **Edit icon** to change the label on the button and to which form it will go.

Background Color

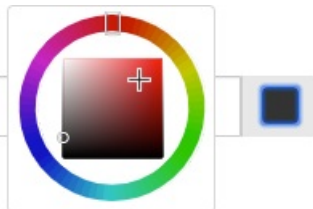

The Background of the Progress section starts as dark grey (hex code #333333) for the Dark Theme and white (hex code #ffffff) with the Light Theme.

To change the Background Color, enter a color's hexadecimal code or click on the color square and pick the color of your choice using the wheel and square.
