Form Submit Section (Corporate Sponsorships)

Last Modified on 06/28/2022 8:47 am PDT

The last section to personalize in your form that is visible on the form is the Form Submit section. The main function of the Form Submit section is to show the total amount and provide the SUBMIT button.

Section Heading

You will want to change the title from **Donation amount** to something more appropriate, like "Sponsorship Total."

You can also delete the text from the Section Heading and the Form Submit section will appear as if it is part of the previous section on your form.

Button Text

You have 14 characters to create the button to submit the details of the form. If the default "Submit" is too generic for you, you can change it to fit the theme of your Activity or just make it more personal, such as saying "Be a Sponsor."

Enable Re-Captcha

This is used for additional fraud protection. Re-Captcha includes the "I am not a Robot" box on the form. The donor would need to click on the box to get a green checkmark before it would allow them to Submit the form.

I'm not a robot

reCAPTCHA
Privacy - Terms

CAPTCHA validation has been activated on GiveSmart Fundraise forms for all clients to enhance security for you and your donors. CAPTCHA protects donors by adding a challenge-response authentication step in the donation process.

Confirm before submitting

This is used for additional fraud protection. When the sponsor clicks the Submit button, it will pop up a message to confirm if they want to complete this transaction.

You're almost done!   X

Please make sure the following amount is correct: **$25.00**
