

# Suggested Amounts Section (Registration)

Last Modified on 05/20/2022 5:25 pm PDT

The Suggested Amounts section allows you to choose what you would like for the three donation buttons on your form. For a Registration form, you will likely want to hide the buttons and only provide the manual entry for a donation.

If you haven't read the [Registration Design](#) article, you will want to start there for all of the things to consider creating your Registration form.

### Suggested Amounts

Show

**Section Heading**

  
    
**Default Donation Amount**  
  
[+ Add Form Element](#)

**Section Heading:** The Section Heading can be changed or left blank if you do not want a section break to show. If you want to add some text or an image with your Registration, you may leave this title/Heading blank, so the added elements can flow through different sections.

Otherwise, you will likely want it to better describe what this is for, such as "Consider adding a donation when you register"

Choose amount

\$250 **\$500** \$1,000 Other

vs.

\$250 **\$500** \$1,000 Other

**Show/Hide Switch:** Usually you will want to change this to **Hide**. While offering the option for a donation may be beneficial, having the large buttons here takes away from the main function of the Registration form: RSVPing.

**Donation Button Amounts:** Since you are most likely not using these buttons, you can ignore them. Otherwise, put in the levels of donations you want from your registrants.

**Default Donation Amount:** Since the buttons are not being used, the Default Donation Amount should be an amount to suggest to your registrants, if they would like to add a contribution above and beyond their sponsorship level. More than likely, you would want to change this to \$0.00. It is a suggestion to donate, not a requirement, so having an amount already selected may confuse and push away your registrants.

If you wish to further personalize the section you can [Add Form Elements](#), such as adding a text, image or video or select different initiatives or anything else.
