

GiveSmart Applications FAQ

Last Modified on 05/31/2022 3:53 pm PDT

What are GiveSmart Fundraise, Events and Donor CRM?

- GiveSmart Fundraise = formerly known as MobileCause
- GiveSmart Events = formerly known as GiveSmart
- GiveSmart Donor CRM = formerly known as SimplyFundraisingCRM

How will I differentiate which platform I am using?

- The platforms are not changing their overall look, and each does look very different from the other, so we don't foresee a lot of confusion when you are within each application.
- The Logo in the upper left will indicate which application you are currently in: either GiveSmart Events or GiveSmart Fundraise. (GiveSmart Donor CRM is still in process of transitioning the brand)

When will SimplyFundraisingCRM in-app branding be updated to GiveSmart Donor CRM?

- The branding will not update immediately and is slated for later this year.

Is this a consolidation?

- No – there are no tools or capabilities going away.

What is changing for me?

- Nothing! The only thing changing is that you now have more options available! No functionality or access will be lost. Instead, additional capabilities are available as a GiveSmart customer.

Why would I want GiveSmart Fundraise AND GiveSmart Events?

- Both platforms have different strengths and features. While there are some overlapping capabilities, the use of both toolsets provides the ultimate fundraising opportunity, with year-round fundraising tools such as Peer-to-Peer, customizable donation forms and flexible recurring giving within Fundraise, and robust auction, event ticketing and guest management tools within Events.
- To learn more about GiveSmart Fundraise, visit the Fundraise Knowledge Center [here](#).

- To learn more about GiveSmart Events, visit the Events Help Center [here](#).

Why would I want GiveSmart Donor CRM?

- This tool provides more simplified and intuitive donor and gifts management capabilities, including dynamic search and filtering capabilities, at an affordable cost. Having Donor CRM and fundraising tools all within one vendor, contract and point of contact is a huge added value as well!

Who can I reach out to with more questions?

- Feel free to contact your Account Executive.
-
