

# Single Sign-On (SSO) Admin FAQs

Last Modified on 06/12/2024 7:39 pm PDT

When 2 or more GiveSmart products are owned, admin have the option to provide a single sign-on (SSO) experience to any admin they want to have access to all owned products. Once an admin has been granted the SSO access, they can now create, edit or delete other SSO admin.

To learn how to create an SSO admin, click [here](#).

Adding, editing and deleting SSO admin in GiveSmart Fundraise has effects on the profiles in the other GiveSmart products.

## New SSO Admin

### What happens when I create an SSO Admin in Fundraise?

Creating a new SSO Admin:

- **In Events:** the user is created as an Organization Admin with SSO permissions. No welcome email is triggered. Find out how to sent the welcome email [here](#).
- **In Donor CRM:** the user is created as an admin with SSO Admin permissions

Promoting an existing Admin:

- **In Events:**
  - If they are an existing Organization Admin with a matching email *and* phone, they will be granted SSO Admin permissions
  - If they are an Organization Admin with a mismatched email *or* phone, you will receive an error to update their contact info
  - If they are an existing Campaign Admin, you will receive an error instructing you to promote them to an Organization Admin
- **In Donor CRM:**
  - If they are a User with the same email, they will be updated to an Admin with SSO Admin permissions
  - If they are an Admin with the same email, they will be updated with SSO Admin permissions

---

## Demoting an SSO Admin

### What happens when an SSO Admin is demoted to a general Admin in Fundraise?

- **In Events:** the Admin remains as an Organization Admin, but SSO Admin permissions are removed
  - **In CRM:** the Admin remains as an Admin, but SSO Admin permissions are removed
-

# Deleting an Admin

## Delete an SSO Admin in Fundraise

- **In Events:** the Admin is demoted to a general User
- **In CRM:** the Admin is made inactive

## How is this different than deleting a general Admin in Fundraise?

Having the SSO Admin experience is what links the profiles across the 3 GiveSmart products. When the SSO Admin status is removed prior to deleting the admin, the connection between the other GiveSmart products is broken, and it no longer has an effect on those profiles.

When deleting a general Admin in Fundraise when the same user has Admin profiles in Events & CRM, they will retain their existing Admin status in the respective products.

- **In Events:** the Admin remains an Org Hub admin (or retains their existing Admin level)
  - **In CRM:** the Admin remains an Admin (or retains their existing Admin level)
-
